

Ridgetop Group Preferred Partner Program Overview

Background

Ridgetop Group announces a Preferred Partner program with the objective of fostering innovation in the fields of electronic prognostic health management and associated intellectual property development. Prompted by both the desire for external innovative collaboration and a robust pipeline of projects using its new technologies, Ridgetop Group will champion the first established partnership in the prognostics health management industry. Ridgetop Group's expansive focus on critical research has yielded some of the industry's most groundbreaking innovations. The Preferred Partner program creates the opportunity for collaborating firms to integrate and pilot early introductions of Ridgetop products and technologies in exchange for future discounts and first-run exposure to the latest and greatest product developments.

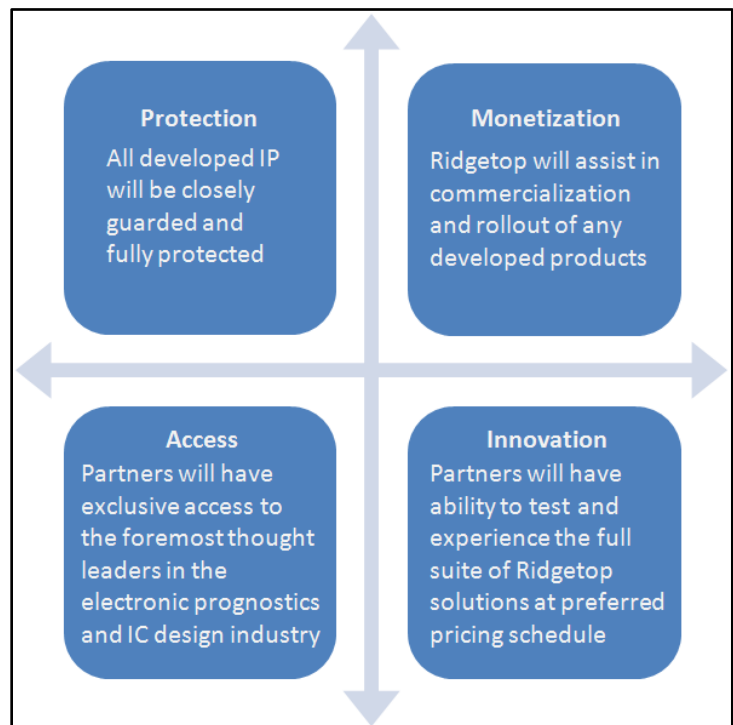

Who Can Join?

Membership in Ridgetop's Preferred Partner program is evaluated on a case-by-case basis. However, partners are typically operating in the following sectors:

- Defense Contractors
- Aerospace Firms (Commercial and Defense)
- Automotive
- Medical Equipment
- Industrial Robotics

Program Benefits

- Discounted technology evaluation licenses
- Collaboration with industry-renowned researchers
- Insight into ground-breaking technological innovation
- Co-development and use of commercially feasible IP by early adopter partners
- Preferred Partner pricing on future collaborations or purchases
- Joint promotion and reference designs

Becoming a Member
